V The Hoscadrug municipality had an opening balance of Rs 6/- Receipts and expenditure during 1911-12 were estimated at Rs 1474 and Rs 1880 respectively Thus the closing balance is a debit balance, being Rs —400

3 It will be observed from the G O No 1549-55 Mil 337-10-4 J 23 8 1911 that for want of funds, provision for lighting charges and Public works in this municipality has been disallowed

V 4 The contribution of Rs 170 payable by the municipality towards Public instruction has been fixed in G O No Camp no 11—20 d 7 116-93 J 12 10 1894 for a period of 5 years subject to alteration after that period with reference to the then receipts of the municipality Apparently no such revision has been taken up since then Even with regard to the revenue of the municipality, it seems to have fared worse for in the order of the 12th October 1894, the estimated moiety of the house and mohatarfa taxes is stated to be Rs 698 This means that the mohatarfa revenue of the municipality was Rs 1396 Against this sum,

The revision of the amounts costs at the end of five years, contemplated in para 2 of the G.O has not taken place. It is now a matter for consideration whether the request of this particular municipality, viz Bosaduga, out of so many in the list, can be singled out for favourable treatment [illegible]

The Municipality is in a bad way and there is no doubt that some sort of check is necessary. The Municipality wanted to do away with the highly paid Sanr Inspr and substitute a work Inspector on a smaller pay. It is cruel to force a Sanr Inspr on a Municipality which pleads inability to meet his pay. If this question is decided in so flagged I can be reconsidered if it would relieve the Municipality otherwise the Education contribution would have to be waived temporarily for some time as there is no other way out of the present difficulty

deration in the light of what has recently been done in regard to the Mysore and Nagpur Municipalities. A larger question is do the obligations of Municipal Councils to contribute (if not altogether) bear the cost of primary education in their local limits - One school of thought would devolve the entire cost of Primary Education in the State on State Resources, as the school of thought would make it obligatory on Boards of municipal Councils to provide for primary and middle education while the higher & Secondary Education is undertaken by the State It is an important question of policy well worthy of a minute from the pen of the learned Member who is also in charge of the Educational portfolio —

24 The principle that Primary Education must be trained by local taxation and that it should be mainly conducted under the of the local bodies, is very widely recognised, and is probably quite sound as an abstract principle But it is well known that our local authorities are not able to manage the concern satisfactorily. Except in Bangalore & Mysore cities, we have Education completely in the hands of the department and I am afraid that for a long time to come, we cannot do otherwise

25 Even in the matter of ~~Educa~~ Contributions, the funds given by the Municipalities are only in name contributions from the Municipal Funds. The order of Government date 12 Oct 1894 shows that these

If I think that it would be the best course to recognise that Education is a Concern altogether under the control of Government and provide fund for it accordingly The Contributions from local funds shall all be taken as usual to augment the available resources The control vested in the Municipalities of Bangalore & Mysore should of course not be interfered with In fact when after the development of our scheme for extension of Education any local authority becomes strong enough and experienced enough to manage the educational concerns of the locality we must entrust them with

Final Note by the Second Councillor

(39) Subject —

Proposal to exempt the Hosdurga Municipality from contributing R$ 170/- towards the cost of public instruction.

---

(40) The Deputy Commissioner of Chitaldrug proposes that the Hosdurga Municipality be exempted from contributing R$ 170/- annually to the Provincial Funds for vernacular education on the grounds that (1) its financial condition is so poor as to necessitate postponement of emergent sanitary improvements and even to seek the help of Government for unavoidable items of expenditure and (2) the Municipality has regularly paid the contribution fixed in 1894, though it is heavier than that payable by Davangere and a few other Municipalities of the Chitaldrug District

2.(41) These grounds are substantially correct The contributions fixed in 1894 are not moreover final in their character, being liable to be revised with reference to the receipts of the municipalities as provided in para 2 of the Government Order No.11-20, dated the 12th October 1894.

3.(42) The Financial Secretary points out that the Municipality should improve its revenues, but it is a well known fact that there are limits to the expansion of revenues in minor municipalities, such as Hosdurga. However, the necessity for a serious effort in this direction will be brought home to the mind of the Deputy Commissioner; and in fact the

Mil 7 91—1913-14 (19

exemption is proposed to last only until the finances substantially improve.

(43) Accordingly, the Council recognizes the necessity for granting the proposed exemption in the opinion recorded by it on the 9th instant.

Officiating Secretary to the Government of

Sir,

I have the honor to state that the municipality at Hosadurga is paying at present a sum of Rs 170 as contribution to State Funds towards public instruction (Vide budget head D.2). Having regard to the present crippled financial condition of this municipality it may be safely said that this payment of Rs 170 annually is more than what the municipality can afford to bear The resources of the municipality being in such a low condition as not to provide funds even for emergent works conducive to the health of the public, a grant of Rs 1000 has been obtained from Local Funds General for the purpose. Vide Para A Further owing to the inability of the municipality to provide funds for the post of Sanitary Inspector on Rs 30-10 it was proposed to entertain the services of a Work Inspector on a reduced salary of Rs 15-8 to curtail the expenditure but this has been vetoed by Government Further attempts are also being made to reduce its expenditure in all directions as much as could conveniently be done to better the financial condition of the municipality The sums charged under the head " contribution to State Funds " to the municipalities of Harihar, Challakere and Jagalur, which are comparatively in a better condition are less than half of what the Hosadurga municipality is required to pay, while the Davanagere municipality which can conveniently meet such charges, has to pay only Rs 1-8-0 for the purpose If the said sum of Rs 170 be saved

annually there is no doubt that it could profitably be utilised to more important purposes for which there are no funds available at present

2 In view of the poor condition of the Hosadurga municipality and the circumstance that it has hitherto more liberally contributed towards State Funds than all the other sister municipalities, I request the favor of your obtaining the sanction of Government for exempting it from the payment of Rs 170 alluded to above till its finances are considerably improved

I have the honor to be,

S I R,

Your most obedient servant,

Deputy Commissioner,
